OCE Permit No.: _____ ODOT #: _____

Comments: _____

Any special hauling permit(s) issued for Gypsum Road CR #33, Plasterbed Road CR #34, and/or portions of Lockwood Road CR #133 and State Road CR #8, shall be issued at permittee's own risk. These areas have been known to produce sink holes and undermining due to local mining operations. The Ottawa County Engineer's Office urges permittee to take all necessary precautions and assumes no liability for the use of these roads.

No vehicle or loads in excess of the prescribed legal limits shall be permitted on the highways on Saturdays, Sundays, or holidays. Vehicle transporting loads in excess of the prescribed legal limits will be permitted to operate only in daylight hours. (Restrictions for Fridays may also be imposed at the discretion of the Ottawa County Engineer.)

Each vehicle must be manned by two operators or drivers.

This permit is effective on Township and County Highways only. It is void inside corporations.

All vehicles transporting loads in excess of legal limits must be equipped with red flags, flares and other warning lights for use in emergency stops. In event the highways, bridges, or culverts are damaged either directly or indirectly by the permit holder's trucks or equipment, the repairs to said highway, bridges and culverts shall be made by the County Engineer and the cost of the repairs, plus the necessary engineering and inspection, shall be presented to the permit holder for payment and in no event shall the State of Ohio or the County of Ottawa be held liable in case of accident.

The acceptance of this permit shall constitute an agreement by the party to whom this permit is granted, to comply with all the conditions and restrictions printed or written herein.

Permit Effective Dates: _____ to _____
