

Project Lifesaver is a program in Ottawa County for individuals who are at risk for wandering (children with an Autism spectrum disorder, adults with dementia, individuals who have experienced a Traumatic Brain Injury etc.). The cost is \$10/month, but no one is turned away because of inability to pay. In the event the person is separated from caregivers, the radio transmitter/receiver technology is used to cut down dramatically on the time it takes to find them. If you or someone you know is caring for someone who might benefit from this valuable service, call [567-262-3133](tel:567-262-3133) for more information.
