From: Ottawa County Engineer's Office  
Date: March 7, 2018  
Subject: Port Clinton Eastern CR #5 and Bay Shore Road CR #135A Intersection  
Safety Improvement OTT-CR5-0.00, PID 105869 – **Questions and Answers #1**

General question(s) and response(s):

1. **Question:** When do you need work on this project to start?

**Response:** Commencement of work will be determined by the Contractor. The Contractor shall establish a construction schedule which includes time for all construction, traffic restriction notifications, and road closure notifications required as presented the project documents. A project completion date of October 31, 2018 has been established for the project. As noted in the project documents, construction activities will be restricted between Memorial Day and Labor Day due to significant increases in weekend seasonal traffic. The contractor is free to schedule work as required to allow for completion on or before the completion date established for the project.

If you have questions regarding this addendum please call the Ottawa County Engineer's Office at 419-734-6777.

Sincerely,

Ronald P. Lajti, Jr., PE, PS  
Ottawa County Engineer
